

**THE ORIGINAL ROBERTSON®**  
**L'ORIGINAL®**

CABINET & MILLWORK FASTENER PROGRAM

## The Original ROBERTSON®

### Fastening System | System de Prise

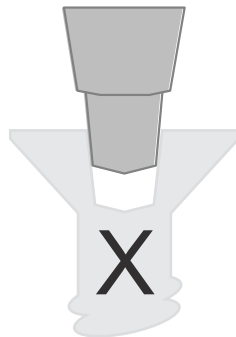

To avoid any problems make sure you're using a matching Robertson® screw and driver to ensure the proper fit. At Robertson it's the wedge fit that gives us our cling fit feature. We construct the complete fastener system and were able to offer the true recess that PL Robertson invented over 100 years ago – The Robertson® Drive.

#### ROBERTSON® "CLING FIT" PRISE ROBERTSON® AJUSTÉE

ROBERTSON® Bits and Screws provide maximum recess penetration and "Cling Fit".

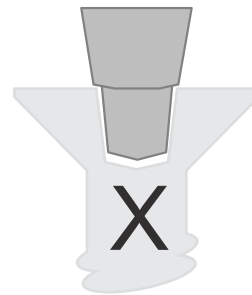

Les vis et embouts ROBERTSON® procurent une pénétration maximale et une "Prise Ajustée".

#### RECESS TOO NARROW EMPREINTE TROP ÉTROITE

When the recess is too narrow, the driver does not penetrate deep enough into the recess.

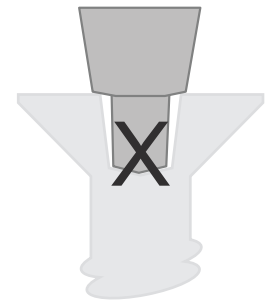

Lorsque l'empreinte est trop étroite, la pointe de tournevis ne pénètre pas assez profondément dans l'empreinte.

#### RECESS TOO LARGE EMPREINTE TROP LARGE

When the recess is too large, the driver will wobble and cam out.

Lorsque l'empreinte est évasée, l'embout ne sera pas ferme et peut rebondir ou se déloger.

#### INCORRECT RECESS ANGLE ANGLE DE L'EMPREINTE INCORRECTE

When the recess or bit is at an incorrect angle, the driver will wobble excessively.

Lorsque l'embout ou l'empreinte se présente à un angle incorrecte, l'embout va osciller.

## → ASTER® Thread Feature / Caractéristiques:

**NOW** Standard on all Lo-Root® and Kwixin® Screws

**MAINTENANT** Standard pour toutes nos vis Lo-Root® et Kwixin®

- Serrated Tooth Thread Design / Profil Dentelé
- Quicker Starting / Engagement Rapide
- Reduces Splitting / Réduit le Risque de Fendillement
- Less Drive Torque / Requiert Moins de Torsion

# THE ORIGINAL ROBERTSON®

## IT'S NOT SQUARE – IT'S ROBERTSON®

Fastener selection is the fundamental component in the production of any woodworking, cabinetry or structural project. Choosing the right fastener for your millwork project is a vital part of the performance, durability and strength in your application.

There are many fastener products available on the market, in addition to many different fastening systems. Once you have selected the right material for your application, you need to determine the right screw and fastening system to use. Fastener hardware can make or break your kitchen application. Robertson® Fasteners make an exceptional fastener for fine appearance in cabinetry work. At Robertson Inc. we manufacture the true Robertson® drive that was invented over a century ago. We offer a wide-range of fasteners used by cabinet, furniture makers and craftsmen woodworkers.

We proudly stock fasteners from Robertson® Lo-Root®, Truss Robertson®, Bracket Screws, Euro Screws to Robertson® Coloured and Plain Driver Bits, along with any other fastener to meet your needs.

**We're proud to announce the launch of our latest product, CAB MAXX™. The CAB MAXX™ is the ultimate screw for installing cabinetry.** The oversized flat pancake head is offered in 8 gauge, zinc finish and features the #2 Robertson drive. We've engineered this screw with 8 countersinking nibs under the head to cut through any wood product, allowing this screw to be perfectly flush with the surface.

## #6 Flat Robertson® Lo-Root® No Nibs

Robertson® Part Number	Description	Drive	Finish	1/4 Keg Bulk QTY
0355-1200-6074-0101	6 x 1/2"	#2 Robertson®	Zinc	15,000

## ➔ LO-ROOT® SCREWS

Good all-around wood screw for many applications

Deep thread with minimum diameter and less material displacement and greatest holding strength in soft materials such as woods and particle boards.

Sharp thread angles and sharp points offer excellent penetration and thread engagement after first round revolution

## ➔ LO-ROOT® MAXX™

Type 17 shank slot cuts into material reducing splitting

4 countersinking lugs under the head (flat Head only)

Recex® drive combines Robertson® and Phillips drive

## ➔ NEW
